CHRISTIAN SCIENCE

Man's spiritual unity with God, as taught and lived by Christ Jesus, will be brought out at Christian Science services Sunday in the Lesson-Sermon entitled "Doctrine of Atonement."

Keynoting the Lesson-Sermon is the Golden Text from I Timothy: "There is one God, and one mediator between God and men, the Man Christ Jesus; Who gave himself a ransom for all, to be testified in due time" (2:5, 6).

The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy:

"We acknowledge Jesus' atonement as the evidence of divine, efficacious Love, unfolding man's unity with God through Christ Jesus the Way-shower; and we acknowledge that man is saved through Christ, through Truth, Life, and Love as demonstrated by the Galilian Prophet in healing the sick and overcoming sin and death" (497:13).

From the Bible the following verses will be among those read:

"Therefore if any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new. And all things are of God, who hath reconciled us to himself by Jesus Christ, and hath given to us the ministry of reconciliation; Now then we are ambassadors for Christ, as though God did beseech you by us: we pray you in Christ's stead, be ye reconciled to God" (II Corinthians 5:17, 18, 20).

Women Voters Plan Finance Campaign

Members of the Arlington League of Women Voters have attended recent briefing meetings in preparation for the League's annual finance drive. It is agreed that the organization has a record of positive achievement to its credit this past year which should make their task a most gratifying one. Arlington citizens have become increasingly aware of League activities, which are planned with the aim of helping residents gain a better understanding of the local issues.

The Candidates Night sponsored by the League of Women Voters drew a larger attendance than any in the past, and many citizens expressed the feeling that it was an extremely constructive and valuable service. Many also said that had it not been for the flyer prepared and distributed by the League, which listed all candidates for local office with their qualifications, they either would not have voted at all or would have voted for unknown names. It is hoped to continue this service in subsequent elections, and also to put much more emphasis on the basic necessity for a much larger number of citizens casting their vote in every election. By getting out a larger percentage of the eligible voters, there is less likelihood of the very small margin decisions, which are not reassuring to either the citizen or the office-holder.

Appreciation has also been expressed for the public meeting at which the Harvard School Survey was explained and discussed before Town Meetings.

The finance drive will open on

officially on April 20th following a final "kick-off" meeting with all solicitors on the 12th. The steering committee which is working with Mrs. Francis Chamberlain, chairman, includes: Mrs. David Ashton, Mrs. Mark Bradford, Mrs. Clarence Brown, Mrs. Robert Clifford, Jr., Mrs. Horace Homer, Miss Cora Morse, Mrs. Chester Protheroe, and Mrs. Kenneth Spengler.

Francis D. Driscoll, son of Mr. and Mrs. Francis J. Driscoll, 93 Webster street, has been named to the Dean's List at the University of Massachusetts. He is a member of Sigma Alpha Epsilon Fraternity, President of Greenough Dormitory, member of Judiciary Committee, Newman Club, Poultry Science Club, and Track Team.

Display Of Easter Eggs At Library

A timely display of beautifully decorated Easter eggs is being shown in the Junior Library of Robbins Library during the month of April. Mrs. Michael Kolodziej of 99 Spy Pond Parkway has loaned her collection of unusual Easter eggs which she decorated with fascinating designs.

Quite a number of her eggs are etched with Polish designs made of hearts, crosses, teardrops, formalized flower petals, sunbursts and dots. She colors the egg after it has been cooked, dips it into hot wax and then the design is etched with a small knife blade or other sharp edge. Another interesting aspect to the Polish eggs is the type of dye used. Centuries ago, peasants used nature's colors. Onion peelings soaked in a small amount of boiling water produces a beautiful bronze or bronze shade. The black is produced by the bark of an oak.

Decorating Easter eggs in this manner is an ancient Polish custom. In Pagan times the egg was regarded as a symbol of life in embryo form. Christianity took over this symbol and gave it a new meaning. The egg now becomes the symbol of resurrection, its hard shell represents the tomb slab pushed aside by Christ. In Poland eggs also play an important part during the week following Easter. Not only do they serve as decoration and food but they figure as stakes in various games.

Another type of Easter egg which Mrs. Kolodziej has included in the display is that of a wax design applied by the head of a straight pin to the colored pastel eggs. She used the melted wax of a candle for this purpose. For the most part these eggs are done in floral designs.

The third group of eggs shown in the display will especially appeal to the children. These have faces drawn on the eggs with the appropriate headgear added. Among these are the faces of a pretty miss with a lace garden hat perched on the top of her blond curly wig, the ringletted cherub with white feathery wings, the angelic pickaninny with plastic wings, the negro minstrel man garbed in white straw hat and bow tie, and in keeping with the season — a bunny face with long floppy ears. The tools and directions which Mrs. Kolodziej uses in her work are a part of the display.

It is well worth a special trip to the library to see this lovely collection of Easter eggs. Mrs. Kolodziej has extraordinary skill and patience to have designed and decorated them.

The Junior Library is open from 1:00 p.m. to 6:00 p.m. on school days and 9:00 a.m. to 6:00 p.m. on holidays and Saturdays.

Easter Seal Campaign Short Of Goal As Final Spurt Gets Underway

An urgent appeal on behalf of crippled and handicapped children and adults of Massachusetts was sounded today as S. Bruce Black, chairman, revealed that with only a few days to go contributions to the \$320,000 Easter Seal campaign have just past the half-way mark.

"We must reach this goal in the next few days or the Bay State Society for the Crippled and Handicapped will have to deny scores of crippled children the services and help they so desperately need," he said. "We may be forced to do this despite figures which show that we must expand and increase our program."

Black pointed out that the number of physically handicapped children and adults helped by the Society jumped from 487 in 1947 to more than 2,000 last year. "Such a sharp increase in the number of persons in the six-year period indicates that the demands on the Society grow every day," he added. "Accidents in the home alone crippled more than 100,000 children annually throughout the United States."

Chairman Black, president of Liberty Mutual Insurance Company of Boston, emphasized that accidents and disease play no favorites. "We never know," he warned, "when it may be someone close to us who will need the rehabilitation services which the Bay State Society provides."

"As Easter Sunday approaches, all of us should count our blessings," Black said. "By giving to the Easter Seal Campaign we can share our blessings with those who so urgently need a helping hand to lead normal, active lives."

According to official figures, state-wide contributions to the Easter Seal campaign total \$166,342 which is 52 per cent of the \$320,000 goal.

Dr. Gordon A. Saunders returned Monday night after a week in Chicago where he attended the Annual Conventions of the American Heart Association and the American College of Physicians. Mrs. Saunders accompanied him on the trip.

Arlington Man Wins Promotion

Richard J. Connolly, brother of Mrs. Robert Mahoney, 342 Massachusetts avenue, Arlington, was recently promoted to Captain in the United States Army Infantry.

Captain Connolly, a 1943 graduate of Arlington high school, is the Commanding officer of Company G, 3d Infantry Regiment, Fort Lesley J. McNair, Washington, D. C.

Connolly twice led his company to top regimental honors. Last year his company scored 930 out of a possible 1000 points to win the "Buff Stick Trophy," highest award the regiment can bestow on a company. His company won it the first time shortly after Connolly took command in 1952.

The 3d Infantry, more commonly known as the "Old Guard," serves in honor guards and color details in official ceremonies and parades in Washington and assists in military funerals in Arlington National Cemetery. Members of the 3d Regiment also serve as sentries at the Tomb of the Unknown Soldier.

Prior to joining the "Old Guard" in 1952, Captain Connolly served with the 350th Infantry Regiment in Austria.

During World War II, he fought as an enlisted man in the South Pacific and China with the 1st Marine Division. After the war, he attended St. Michaels College, leaving to accept an Army Reserve 2d Lieutenant's commission in 1949. A year later he received a Regular Army commission.

Neighbor To Neighbor Canvas To Round Out Cancer Campaign

An intensive neighbor-to-neighbor canvass during the final hours of the 1954 Cancer Crusade, on a scale never before attempted and aimed at giving every householder an opportunity to contribute in the fight against cancer as well as receive life-saving information on America's No. 2 killer, will climax the campaign in Arlington, it was announced today.

The date for this neighbor-to-neighbor solicitation has been set for April 27, according to Dr. Robert A. Friberg, campaign chairman in charge of a corps of 650 special women volunteers.

The intensive effort will be a part of a State-wide neighbor-to-neighbor canvass in more than 100 communities, with Boston alone reported as having an army of more than 8,000 women volunteers for the purpose.

In most communities this canvass takes the unique form in which it will be neighbor-to-neighbor not only in name but actually in fact and will operate as follows:

Captains on each street in the community will leave life-saving literature on cancer and envelopes containing pledge cards at the first house in the block. That "neighbor" will do his part, then pass the literature and other pledge cards on to his next-door neighbor. Each succeeding neighbor will do likewise, carrying the responsibility for passing the material to the home next door. Volunteers will make their pickups of pledges at the house in each block.

Where for various reasons this plan cannot be followed in its entirety there will nevertheless be a thorough house-to-house solicitation using customary personal calls. In a few instances where the house-to-house method is being employed it will extend over a period of four days instead of one.

In commenting on these plans, Adrian O'Keeffe, president of the First National Stores, Inc., campaign chairman for Massachusetts, said:

"We at headquarters are looking to this mass solicitation as the climax to the month-long effort to raise our quota of 6710,000 and we have every reason to believe

that such concentrated solicitation will put us over our goal. It is certain not only to produce funds to fight cancer that would not be raised otherwise, but it furnishes the opportunity to reach thousands with life-saving educational material which alone justifies the effort."

Volunteers who will participate in the canvass have been briefed in statistics showing that although some 73,000 persons' lives were saved last year by early diagnosis and prompt treatment, an equal number died needlessly in the same period simply because they did not heed cancer's danger signals in time.

To combat this public unawareness of the hope at hand the National society is placing all emphasis possible on public education, a step amply justified by a recent survey which disclosed that one out of every two persons approached did not know that cancer is curable when diagnosed in time, and that 46 percent of those questioned did not know a single one of cancer's most common symptoms.

Two Arlington Marines, Pfc. David H. Webster, son of Mr. and Mrs. Roy M. Webster of 15 Ronald road, and TSgt. Edward L. Morrill, Jr., son of Mr. and Mrs. Edward L. Morrill of 36 Coolidge road, Arlington, and husband of the former Miss Lorraine J. Zydez of 1327 N. Maplewood ave., Chicago, Ill., landed on Iwo Jima with the 3rd Marine Division during the recent "Operation Flag Hoist."

Nine years and a month after the first landing, the Marines came through the surf and dug out a beachhead in the familiar volcanic ash, amid ruins of WW. II. They powered their way inland, directing their attacks against an "enemy" force acted out realistically by the 2nd Battalion, 4th Marines who had spent a month digging in for the "battle."

Following successful completion of the mission — to seize, occupy and defend Iwo Jima — memorial services were held for the more than 4,000 Marines and Sailors who gave their lives in 1945 to take the island for use as an American airbase.

TOWN HALL**Press Conference**

The Town Manager and the School Committee will meet Tuesday evening, April 20, to further discuss the plans for the addition to the Bishop School. Co-chairmen of the building committee are School Committee chairman and Town Manager Monahan.

A hearing will be held in the office of the County Commissioner in Cambridge, in regards to the relocation and specific repairs on Appleton street, on Tuesday, April 27 at 10:30 a.m.

All streets on the south side of Massachusetts avenue have been cleared of sand, and work is being done on the west side this week. Three sweeping machines are working during all the hours of daylight, starting at 5:00 a.m. The cleaning of the streets constitutes a tremendous project since the sanding done throughout the winter was so thorough. A total of 4400 tons of sand were spread during the last winter. The sand which is picked up is being used for fill in the town dump on Summer street.

The Selectmen have called to the attention of the Board of Health the problem concerning conformance with the regulations covering sanitary conditions in and about places where food is served. The Board is expected to study the problem and take whatever action is necessary to solve it.

The Fire Department and the Board of Health are asking the co-operation of all store owners in the cleaning up of the back yard areas of their stores. Proper receptacles should be provided to assure the keeping of health and fire regulations. All town school yard areas are also being cleared of old newspapers and debris which has accumulated during the winter. Mr. Monahan has suggested that a "Spring Clean-up" drive be held in the town next year. During this drive the town rubbish trucks would be permitted to pick up items which are usually not acceptable and must be disposed of by the owner. It's our town and it's up to us to keep it clean.

A "To Medford" sign has been put up at River and Warren streets in an effort to relieve the traffic pressure at Franklin street.

The duties of the Town Manager are clearly outlined in an article in the March 6 issue of "Business Week," entitled "How a City Manager Earns His Keep." The Manager read this article and he commented that it presented a true picture of his job.

Town Clerk James J. Golden announced that he has received the resignation of Brewster Ames, 181 Mystic street, as a member of the committee to investigate, consider and make recommendations to the town relative to the disposal of refuse and incinerators. The resignation is effective on the date of filing, April 12.

Cpl. John F. Robinson, 22, son of Mr. and Mrs. George T. Robinson, 22 University road, Arlington, will move to Fort Bragg, N. C., this month with the 37th Infantry Division to take part in Exercise Flash Burn.

Corporal Robinson is an instrument corporal in Heavy Mortar Company of the division's 148th Regiment stationed at Camp Polk, La. He holds the Purple Heart and the Combat Infantryman Badge.

Edward H. Fitzgerald, Jr., journalist seaman, USN, son of Mr. and Mrs. Edward H. Fitzgerald of 51 Oak Hill dr., Arlington, has arrived in Boston aboard the heavy cruiser USS Salem April 7.

The ship has completed a five-week refresher training cruise in the Caribbean.

MENOTOMY - 1775

(Indian name for Arlington)

It was not only at Concord Bridge,
Nor yet at Lexington Green,
That Heroes showed on that April Day,
When patriots stood between
A monarch's greed and the freeman's right.
Devised from the sire to the son:
Menotomy, too, had part in the fray,
And grief when the day was done,
Menotomy's plain was a field of war,
When the enemy came in retreat,
And the Red-coat toll which her Townsfolk took
Had a place in a king's defeat;
And the lives which her townspeople gave that day,
Were theirs to withhold or give,
They craved no praise, but to us it falls
To see that their fame shall live.
We pluck no leaf from another's wreath,
Deduct no word from his due;
But our own are our own, and we ask that they
Share in the honor, too;
When the battlefields of that day are named,
Remember that there are three:
Lexington Green, and the Concord Bridge
And the Plain of Menotomy.

cannot expect it to take the place of hard work. Customers need to be cultivated the same as do crops. Advertising will help get people into the store and interest them in certain products; but the sale must be made by a man or woman employee.

MY FATHER WAS A STOREKEEPER

My father kept a dry good, novelty, and sort of "variety store" in Gloucester, Mass. I worked in this store on Saturdays and during winter vacations. My father was very successful with this store, starting with nothing and becoming the leading merchant of Gloucester and vicinity.

He used to say to me: "Roger, when you grow up, either become a merchant or invest your money in good merchandising organizations, rather than in railroads or industrial promotions. A merchant with a fair turnover has nothing to fear and can always make money." But, my father was a good worker, at the store from 7:00 a.m. to 6:00 p.m., six days a week.

KNOWING EVERY CUSTOMER

My father was a deacon in the local church; he had a large Sunday School class. He was very much interested in knowing and helping people. There were no such things as card files in those days; but he kept a book listing the children of each customer and, especially, listing names of sickness. Then, there were no trained nurses. Neighbors would volunteer to "watch" at night with the sick, accepting, of course, no pay. Every week my father would be away some night watching by the bedside of the husband of some humble customer.

Father trained his clerks to get truly acquainted with everyone who entered his store. He would constantly check on the clerks — not by asking: "Did you make a sale?" but by asking: "How many children has that woman? Is there illness in the family?" He not only was the city's most successful merchant, but at his funeral the church could not hold the people who loved him and who loved all who ever worked for him. He didn't have a private office up a flight of stairs in the back of the store. His desk was by the door so he could say "Good Morning" to all as they came in, and "Good Luck" as they left. Sales are made through feelings rather than through figures.

A SUGGESTION

I forecast that if all the Chambers of Commerce would operate properly led night schools for their local Sales Clerks, national purchasing would so increase that there need be no unemployment, the Federal budget could be balanced, and taxes could be reduced. America does not need more money, but it needs more confidence and friendliness so that the money we have will circulate more freely and more often.

Jackie Cosgrove Out For Baseball

Jack Cosgrove, co-captain of the 1953 Bowdoin College, Brunswick, Maine, football team, is one of seven lettermen slated to play on this year's baseball nine. The former Arlington high school star bats and throws left handed. He will hold down an important spot in the Bowdoin infield this spring. The Polar Bears, who finished in a three-way tie for the State Series Championship in a winning 1953 season, face a 16 game schedule. After the April 19 opener with Colby the team will oppose four Massachusetts teams including Williams and Amherst before they resume State Series play.

Seven lettermen will be on hand to boost Coach Danny "Deacon" MacFayden's '54 club. Before coming to Bowdoin MacFayden saw 16 years' service as a major league pitcher. He started with the Red Sox in 1926 and moved to the Yankees in 1932. He also saw action with the Boston Braves, the Pittsburgh Pirates, and the Washington Senators. He began his coaching duties at Bowdoin in 1946 and since that time has coached the Polar Bears to four State Series championships and two ties.

Cosgrove is the son of Mr. and Mrs. Thomas B. Cosgrove, Maynard street, Arlington. In the opinion of many Jack was one of the greatest quarterbacks in recent Bowdoin history. He directed the football team to nine victories and one State Series championship in the two seasons he started at the key post. Cosgrove has two years' of varsity baseball experience and will be counted on heavily in the coming season.

A senior, he has been active in school activities. In addition to the offices he has held in his fraternity, Kappa Sigma, he was vice-president of the White Key, the undergraduate council that regulates interfraternity athletics. Cosgrove is enrolled in the Bowdoin ROTC unit and will receive a reserve commission when he graduates.

Mission Society To Holds Meeting

The Women's Mission Society held its regular monthly meeting Monday afternoon in the chapel of the First Baptist Church, with Mrs. George E. Miller, President, as the presiding officer.

Guest speaker was Rev. Newton Woodbury, who showed slides in color of Baptist work among the Indians in Montana, Oklahoma and Arizona.

The love gift of money was dedicated in a special service participated in by Mrs. Marcus O'Day, Mrs. Norman Jacobson, Mrs. Ralph Bates, Mr. Ralph Hupfer, Mrs. Everett Carberg, Mrs. Theodor Phinney, Mrs. Carl Patrinquin, Mrs. Clifton Philbrick, Mrs. Charles Meilen, Mrs. Nish Atamian, Mr. Frank Clare, Mrs. Frank Locke, and Mrs. E. C. Hildreth.

Mrs. Marcus O'Day reported on the success of the newly formed Sunshine Circle, and introduced the leader, Mrs. Rodman Dickie Jr.

Mrs. Earl Bolton, president of the Arlington Council of Church Women, conducted the devotional period.

Mr. Harry Thompson, chairman of White Cross work, gave a report on the amount of materials given to mission work, including money, clothing, soups, drug supplies, hospital supplies, dolls and handwork.

Mrs. Percy Back, program chairman, presented Mrs. Florence G. Wheeler of Cambridge, who gave two piano solos: "From An Indian Lodge" and "To The Rising Sun."

Mrs. Violet McSorley of Belmont sang two solos, "I Walked Today Where Jesus Walked," and "I Will Pilot Thee." She was accompanied by Mrs. Wheeler.

Mrs. John Crosby was pianist for the group singing. Tea was served by members of the Summer Street Circle.

School Board Members Attend Area 2 Educational Conference

Mrs. Albert Porteus, Mrs. Eleanor J. Strong and Mrs. James R. Boyd, the three women school committee members attended the Area 2 Educational Conference to which all school committee members are invited.

The Conference was conducted under the auspices of the Massachusetts Association for School Committees at the G. M. Parmenter School in Franklin, and was attended by over two hundred.

Previous to the meeting the "Women" toured the school which has recently opened with an eye to those factors which will assist those citizens who will be chosen to serve on the building committees. Many new and interesting features were observed. The building has ten class rooms, all on one floor, health room, principal's office with a large waiting room, teachers' room, cafeteria, kitchen, lobby, multi-purpose room, chair storage room, toilet rooms, boiler room, shower rooms, and storage rooms. Each room has its own exit door, leading outside, wash sinks, drinking fountains, and toilets in the first and second grade rooms. The building cost \$397,000 without the land.

Professor Wm. J. O'Keefe of Boston College Law School was the main speaker. He was very interesting and gave much information pertaining to the rights and responsibilities of the school committees. He stressed the fact that our school's administration, budget and the disposition of the budget are entirely in the hands of the school committee and not subject to ratification by any finance boards, town manager or town meeting members. It is the prerogative of the school committee and the town or city must supply the money requested or stand liable to the courts, he said.

Miss Casey, a teacher in the Milton schools, is a graduate of the State Teachers' College at Salem.

Mr. McNamara was graduated from Boston College.

Mr. and Mrs. John Frend of Southport, Conn., announce the engagement of their daughter, Miss Rosemary Frend, to Dr. William Stetson Garcelon, son of Mr. and Mrs. Alonzo Garcelon of Arlington. Miss Frend attended Arnold College and is a graduate of the Roosevelt Hospital, school of Nursing.

Dr. Garcelon was graduated Cum Laude from Harvard University in 1948, and received his medical degree from the College of Physicians and Surgeons at Columbia University in 1952.

Robert Browning's "Epilogue" was used last Sunday to give emphasis to the Palm Sunday message in the sermon "Jerusalem, 1954 A.D.," delivered by the Pastor. Browning's words characterized Jesus, and depicted the quiet, resolute inner spiritual strength of Jesus as he entered Jerusalem, a resource available to modern folk in their times of decision: "One who never turned his back but marched breast forward . . . Never doubted clouds would break . . . Never dreamed, though right were worsted, wrong would triumph . . . Held we fall to rise, are baffled to fight better . . ."

A large gathering of men of the Parish sat down last Sunday morning to a breakfast in the Vestry, and following the meal heard Dr.

NEW PAINTINGS OF THE FIRST GOOD FRIDAY

Jesus before Pilate

Simon carries the Cross

The Crucifixion

AS the lenten season draws to a close, the great drama of Holy Week is recalled by Christians everywhere. The day of the crucifixion—Good Friday—is especially revered and the events of that dark day stand out sharply in the pattern of the Holy Week scenes.

Christians of all faiths will be interested in the announcement of the new religious masterpieces painted by the American artist, Ben Stahl and depicting the journey of Jesus from Pilate's house to Calvary's hill.

These paintings, done especially for a new edition of the Catholic Bible published in Chicago by the

Catholic Press, consist of a series of 14 dramatic incidents on the Via Dolorosa.

Acclaimed already to be as fine as the religious art of the old masters—and in some instances to excel famous paintings of the suffering of Jesus—the series by Stahl was completed on a commission from the Catholic Press. The 14 paintings will illustrate the Stations of the Cross in the new popular edition of the Bible—an altar-size book for family use, printed in two color type with many full color illustrations of Biblical scenes.

Among the outstanding features of the Bible are the 14 page-size color reproductions of Stahl's great illustrative art covering the story of Good Friday.

Eugene S. Ashton, Acting Dean, Tufts College, School of Religion speak on "Wanted: Champions."

Mr. Albert K. Peirce was in charge of a committee of men that prepared and served breakfast, and Mr. Warren J. Guild was chairman of the attendance committee.

Annual Spring Inspection Due

Massachusetts motorists are urged to take early advantage of facilities offered by official inspection stations conveniently located in every section of the Commonwealth.

Registrars of Motor Vehicles, Rudolph F. King, in a statement released from his office today, had this to say about the Spring inspection:

"Approximately 3,000 official inspection stations have been approved throughout the Commonwealth and each is ready to service vehicles during this April inspection period. Early inspections are urged when crowded conditions are less likely to be encountered."

"The law is specific — any vehicle which has been registered and operated in Massachusetts at any time during the month of April must be inspected and display an official inspection sticker on the windshield to be legally operated on Saturday, the first day of May."

"Vehicle inspection is a positive contribution to the state-wide highway and traffic accident prevention programs of the Commonwealth."

"Have vehicles inspected now! Comply with the law; save time and money, and help make our highways safer for everyone!"

Harold J. Kelley, Seaman, Apprentice, USN, son of Harold C. Kelley, 27 College ave., Somerville, and son of Mrs. Mary R. Kelley, 104 Medford street, Arlington is among 120 future submariners now attending the enlisted basic submarine course, Class No. 105, at the Naval Submarine Base, Groton, Conn.

Herby doesn't mind wearing braces because they help him to walk. Someday he may walk and play and even run without braces if enough people use Easter Seals. The Easter Seal campaign of the Bay State Society for the Crippled and Handicapped for \$320,000 continues through Easter Sunday.

May Make New One Way Street

The question of making Paul Revere road, from Park avenue to Mass. avenue, a one-way street was raised at the meeting of the Selectmen Monday night. This area presents a traffic problem for shoppers on Thursday and Friday evenings and to church goers at the Park Avenue Church on Sunday mornings.

No decision was made on the question, but it may be made one-way only at certain times, such as at service time on Sunday.

Another traffic question that was brought up at the meeting was in regard to angle parking on Massachusetts avenue from Medford street to the Town Hall. Angle parking was also suggested around the island, to the right of Mass. avenue and to the left of Broadway. It was also stated that if the town green was eliminated,

thirty cars could be parked there. No decision was reached on these questions and the Town Manager was asked to make a study of them.

ON DEAN'S LIST

A total of 1,511 Harvard College students were rated on the Dean's List at midyear, it was announced recently. Among the group are the following from Arlington:

Ralph G. Angus, 49 Allen street; Earle M. Edgerton, 147 Gloucester street; Robert G. Fisk, 22 Stevens Terrace; Walter F. Gannon Jr., 45 Tufts street; Charles M. McEwen Jr., 14 Pelham Terrace; Benjamin L. Moltman Jr., 2 Stevens Terrace; Anthony S. Patton, 21 Oakland avenue.

Channel 2 Drive Progresses

Further plans for the forthcoming drive for Channel 2 were made at the second meeting of the committee at the home of Mrs. Albert R. Porteus on Monday night. Mr. Joseph Gaudet of the school department and Mr. Robert Mahoney were among those present and gave much assistance in formulating the definite plans.

The three Rs of educational television will be "Respect for the televiewer, and Respect for the performer or person who presents the program, and Respect for the content of the program."

When telecasting begins, every television home in the Channel 2 area — a radius of better than 60 miles from Milton (where the transmitter is located) can tune in on present sets. Channel 2 is the first dial on every TV set.

Your child and yourself need Channel 2 — we hope that each and every family in Arlington who possess a TV will do his or her part when the drive is underway, as well as those who are interested in giving our Youth the best in programs covering Science, Art, Music Entertainment, public affairs, literature and citizenship.

The extent to which we can fully realize the potentialities of Educational Television will depend in large part upon the campaign which is now seeking operating funds for Channel 2. Will You Help?

Joseph E. Cummings of 22 Hayes street, Arlington, received a service emblem for 30 years of service with the New England Coal and Coke company, subsidiary of the Eastern Gas and Fuel Associates, recently.

APRIL is Safety Inspection Month!

Compulsory inspection of all vehicles operated in Massachusetts prior to May 1st is now underway. Each car — business or pleasure — each trailer, truck, or tractor must pass a test for safety and display a safety sticker.

Spring inspection is particularly important, first because of the hard wear that Winter gives to a car, second because of the heavier traffic and faster speeds of the Summer ahead. The ruts and skids and strains of Winter injure brakes, wear out tires and loosen joints. Check YOUR car now. Be sure YOUR car will respond THE RIGHT WAY in event of an emergency.

The following concerns of Arlington will check your car thoroughly and make it eligible for a Massachusetts safety sticker. If adjustments are needed to make your car safe they will do a good job at reasonable prices.

Attorney DeGuglielmo Seeks Post Of Attorney General

ATTY. J. A. DeGUGLIELMO

Attorney Joseph A. DeGuglielmo, former Mayor and present Councilor of the City of Cambridge today announced his candidacy for the Democratic Nomination for the office of Attorney General of the Commonwealth of Massachusetts.

A life-long resident of Cambridge former Mayor DeGuglielmo lives at 24 Arlington Street, Cambridge, with his wife and daughter. Among his educational accomplishments he numbers an A. B. from Harvard in 1929 and an L. L. B. from Boston University School of Law in 1933. Since 1933, DeGuglielmo engaged in the active practice of the law before the Courts of the Commonwealth, and in 1934, he was admitted to practice before the Federal Bar. In 1947, he was honored with the presidency of the Bar Association of the Third District Court of Eastern Middlesex covering the city of Cambridge, and the towns of Belmont and Arlington.

DeGuglielmo served the City of Cambridge in many and varied capacities. From 1935 to 1940 he was Assistant City Solicitor of Cambridge. He was legal advisor to the Board of Election Commissioners in 1941 and 1943 in its proportional representation election.

DeGuglielmo, a veteran of World War II was an advisory member of Draft Board No. 45, Chairman Price Panel of Cambridge War Price and Rationing Board.

DeGuglielmo has served continuously on the City Council of Cambridge since 1945. In 1947-1951, he served as vice-Mayor of the City. 1951-1953, he has been its Mayor.

Among the organizations with which Attorney DeGuglielmo is affiliated are:

Cambridge Council No. 74, K. of C.; Bishop Cheverus Assembly; American Legion Cambridge Post No. 27; American Post No. 2, Past State Department Vice Commander; Italian American Veterans; Loggia Italia No. 506, Order Sons of Italy in America; Italian-American Charitable Society; Italian-American Citizens Club of Cambridge; Alpha Phi Delta Fraternity, National President 1940-1945; National Secretary 1945 to date; Cambridge Bar Association; Massachusetts Bar Association; Justipian Law Society; Bench and Bar Society; Cambridge Lions Club, Past President; B. P. O. E., Cambridge No. 839.

In announcing his candidacy, DeGuglielmo said in part:

"I consider it an honor to be privileged to submit myself and my record as a candidate for the Democratic nomination for Attorney General of the Commonwealth of Massachusetts.

During my many years of public service and as a practicing attorney, I have been actively associated with the various law agencies resulting in a thorough knowledge of the many legal prob-

lems of the Commonwealth, particularly in relation to our cities and towns."

I submit myself with the view of contributing to the Democratic Party and the Commonwealth of Massachusetts an experience predicated upon a proven record of performance and unimpeachable integrity.

I make no promise except the one which I know I can keep—to bring to the Democratic party and the Commonwealth of Massachusetts that same ability, that same integrity, that same performance which vitally assisted in making Cambridge the best run city in the Commonwealth during the past ten years. The Commonwealth of Massachusetts is today sick. It can be cured of its ills—not by idle talk and promises but by performances. The performance must be by proven able public servants whose administrative records are open to the closest inspection and not by the empty promises mouthed by the politically inept. DeGuglielmo will bring that performance to the Commonwealth."

Veteran's News

Massachusetts veterans who want to learn whether the courses they wish to take under the Korean G. I. Bill have been State-approved may get this information from the Veterans Administration Regional Office at One Beacon Street, Boston, Manager William J. Blake said.

Blake suggested that veterans do not ask their Regional Office for complete lists of approved courses in all fields. Instead, a veteran should have a fairly good idea of what type of training he wants, when he contacts the Veterans Administration for information on GI-approved courses. This way, the Veterans Administration can easily furnish him with names of schools offering courses in his chosen field, so that he can decide where to train.

If the veteran isn't sure what kind of training to take, he may avail himself of Veterans Administration's vocational counseling. Through tests and interviews, the counseling process enables him to understand his capabilities, so that he is in a much better position to make a wise choice.

Information with regard to Veterans Administration benefits may be obtained from James J. Keefe,

BABSON DISCUSSES IMPORTANT PEOPLE (Exclusive NEWS Feature)

President Eisenhower and his Cabinet will not be the most important people of 1954. The Senators and Congressmen will not be the most important people of 1954. And this same statement can be made regarding bankers and other big shots. Conditions often make presidents, but presidents cannot make conditions.

SALES CLERKS DETERMINE 1954 EMPLOYMENT

The most important people during 1954 will be those now employed as salesmen, and especially the sales clerks in your stores. In previous years these people have not been so important; they served largely as "order takers," wrapping parcels and making change. But, conditions in 1954 will be different. They must create sales.

Fundamentally, prosperity and good times depend upon employment which supplies the money to buy. But manufacturers cannot furnish employment without orders for their goods. The orders depend upon the men and women at the counters of the stores. Prosperity or depression starts with the salesmen and sales clerks.

WHAT ABOUT ADVERTISING?

I am a great believer in honest advertising. A merchant's success is very dependent upon his advertising. Advertising bears the same relation to profits for the merchant as fertilizer does for the farmer. Still, the farmer cannot depend solely upon his seed and fertilizer. He must cultivate, spray, and gather his crops.

The same is true of advertising. Although advertising is absolutely necessary and much more of it should be used in 1954, yet merchants

RATS IN THE HARDY SCHOOL

For a period of six weeks, the three Hardy School sixth grades saw and participated in an actual health and nutrition experiment with real live white albino rats. Three pairs were supplied by the New England Dairy Council, along with cages and instructions for handling and feeding. The white rat is used because it has a short life span, is small, easily caged, clean, eats food which people enjoy and respond to different type diets much the same as people do.

The primary purpose of the demonstration was to show the children that the growth of their bodies and the food they eat are directly related. The children were in complete control of the experiment. The breakfast meal was selected to be used in the demonstration because doctors and nutrition experts tell us that breakfast is the most important meal of the day. Unfortunately most people today are in too much of a hurry to eat a proper breakfast.

It is important to note that both rats had the same quantity but not

the same variety. One rat was placed on a balanced, carefully selected diet with milk, while the other was given a haphazard diet with no milk. For three weeks the rats growth, appearance, attitude and habits were carefully watched. After this period both rats were placed on exactly the same diet and the results were amazing. The children found that the rat on the good diet grew very fast and strong while the other rat grew very little and much slower than the other. When placed on the good diet he gained rapidly but would never catch up with the first rat. One class had a fussy eater who wouldn't drink his milk. The class soon overcame this obstacle by feeding the rat milk products such as cheese and butter.

Over the weekends, the rats went visiting the children's homes. The demonstration taught the children the proper way of handling animals, developed a responsibility toward living creatures, increased their vocabulary and taught them the scientific method of reaching conclusions.

Governor Joins In Decision Eliminating Arlington

Governor Christian A. Herter and Public Works Commissioner John A. Volpe announced today that all studies on proposals for bringing Route 3 into Boston from Route 128 will be discontinued because it is impossible for the Department to consider construction of this portion of the highway for many years.

Commissioner Volpe said that he has received almost all of the comments he requested some time ago on three tentative routes he sent to local officials for their suggestions. He went on to say that these comments will be placed on file for future reference.

"Our reason for discontinuing this study at the present time," Commissioner Volpe said, "is that the problem of route selection will require an unusual amount of time for solution and cursory studies made to date indicate no simple answer. The area to be crossed is already thickly settled and highly developed."

"The advantages of acquiring a right of way over vacant or undeveloped land in advance of actual construction can not be realized in this case; therefore, it is

considered that the time of engineers could be more profitably used on projects which can be programmed for the near future. In the meantime, changing traffic volumes and the effect of facilities now under construction or proposed might drastically alter the Department's thinking with regard to Route 3. We hope that time and future conditions might result in circumstances which obviate the need for disruption of highly valuable business and residential properties in the areas now involved.

"A short while ago, I announced that studies for bringing Route 3 through the Cambridge area had been discontinued. I wish to announce today that we are also discontinuing studies for bringing the route through Arlington. Insofar as I can say at the present time, this decision is final."

"The Department of Public Works wishes to express its thanks to those who offered constructive criticisms and suggestions relative to the three tentative routes outlined by the Department several weeks ago. Full weight has been given to these comments and contributed to the decision announced today."

Gott Letter Outlines Work To Be Completed On Concord Pike

Keenan Still Has Doubts

As a result of a press release given to the newspapers on April 12, the same day the Highway Bill was to be debated on the floor of the House, Commissioner Volpe made the following statement: "A short while ago, I announced that studies for bringing Route 3 through the Cambridge area had been discontinued. I wish to announce today that we are also discontinuing studies for bringing the route through Arlington. Insofar as I can say at the present time, this decision is final."

Representative Keenan has indicated to the press that this statement is not an out and out clarification of the highway will not be built through this general area and it still leaves a doubtful cloud over the area. Representative Keenan and other Representatives from Cambridge and Somerville are going to offer an amendment.

Representative Hollis Gott, House Lobby, State House, Boston, Massachusetts

In reply to your recent inquiry on Route 2 and reported property takings for the improvement of this highway in the Arlington area, I wish to reply that our present plans are to widen the roadway within the present right of way held by the Department. Improvements will consist of widened shoulders and a narrow median strip in some sections in order to improve the safety features of this very important and heavily traveled highway.

In addition to this, consideration is being given to the elimination of congested intersections. This, of course, will involve grade separations. However, plans for these are most indefinite. Should our survey indicate such grade separations are necessary and desirable, it may be necessary to make a very few property takings for the construction of ramp roads. The takings for these ramp roads will
